Teaching is fair...

Teachers are good and intrest in various activities....

Overall is very nice teaching..

1. The institution should look at improving the existing network infrastructure for teachers, so that the teachers have access to better internet connectivity and are able to conduct classes smoothly and more productively.

2. The time period for an individual class should be increased so that one topic can be covered in good detail in a single class. This would help students grasp topics more clearly and also let teachers plan lessons more effectively.

3. The Institution library should be made available online on a central platform, so that students can access reference material from anywhere, allowing

If the library facilities are available online, the students and teachers must also be given extensive training demonstration and documents so that they know how to use the online platform. Thank you.
